

## Testimonials

Customer satisfaction is of paramount importance to me - Below is a selection of a few from the many testimonials that I have received.

*"If you have brick walls with your Welsh ancestors and are looking for a person who is knowledgeable in the areas of Northern Wales, its customs, records and the Welsh language you can find no better than Angharad Bowen Holmes. She found the town where my grandfather Thomas came from in Wales, found the graves in the cemetery of his parents and grandparents and invited us to Wales where she took us to the house where my grandfather was born in 1861, arranged for a tour of the slate quarry where he had worked and found records we would never have found without her. She made us feel at home as if we had been with our own family."*

William and Agnes Thomas  
Bakersfield, Vermont

*"The information on the Griffiths Family Tree that you were able to research and collect for me filled in most of the historic background of my father and his family. With your knowledge and the guided tour of Anglesey and North Wales, we were able to find cemeteries, churches and houses of my Griffiths ancestors, as well as many still residing in the area. Your knowledge of the Welsh language was invaluable in translating historic writings. I would highly recommend your services to anyone researching their Welsh roots."*

Iona and Bob Solohub  
Eden Priarie,  
Minnesota.

*"I awakened this morning thinking that I must begin writing thank you notes this weekend. You are high on the list! Angharad, we are all very thankful to you for the research you have done on our Jones-Owens roots and thoroughly enjoyed the wonderful day touring family history sites. It doesn't seem as though almost two weeks have past since that day. When I think of my favorite settings in Wales, the scenery surrounding Llanddyfnan Church always comes to mind. What splendid views we took in from that church yard! I will try to capture more about the people, places and times to which you expertly introduced us."*

From Roberta Owens of Georgia U.S.A. August 2006

*"It was a wonderful day - your historical knowledge is incredible. Thanks so much."*

Linda Edell from Florida U.S.A.
